PEARSON PLANT
TO START JULY 1

Sales Department Will Be Moved From Chicago to El Paso.

Saws and planers will be humming at the Pearson plant by July 1, Dr. F. S. Pearson says. Dr. Pearson, head of the Pearson syndicate, which is building the big woodworking plant, box factory and paper mills, arrived from New York Saturday morning to inspect the progress of the construction work on the El Paso Milling company's plant in South El Paso.

Dr. Pearson was accompanied by H. I. Miller, vice president of the Mexico North Western and active manager of the Pearson enterprises in the southwest and Mexico.

Upon his arrival here Mr. Miller announced that the sales department of the Pearson syndicate would be removed from Chicago to El Paso and would occupy a part of the office building now being erected at the factory and mill site. This will bring from

eight to 15 salesmen here from Chicago, who will travel out of El Paso after the completion of the plant.

Work Progresses Well.
"The reports show that the work is progressing rapidly and three weeks or a month at most should see the plant in operation. Everything has been arranged regarding the bringing of lumber from our Madera and Pearson mills for the El Paso plant and the conflict as to the payment of duties has been adjusted satisfactorily. I am sure that there will be no trouble in getting out lumber for the use of the El Paso plant."

Will Not Go to Mexico.
"We are not going to Mexico on this trip, as I wish to visit the irrigation system which we are installing near San Antonio. We have made no claims for damages to the Mexican Government as yet, as this will not be done until the trouble is settled. The rebels have burned a few bridges and done other damage, but it is of no great consequence."

Mr. Miller and Dr. Pearson will leave Sunday evening over the G. H. & S. A. for San Antonio. Mr. Miller is accompanied by Mrs. Miller. They went Saturday inspecting the plant.

You'll be much cooler and more comfortable if you wear Bryan Bros. special summer underwear.

Ladies' garments cleaned, Wright.

FLOOD CREST IS
PASSING EL PASO

Continued from page 1.)

The railroad is above the surface of the water. On the New Mexico side of the river the greenhouse of H. A. Keizer is flooded and the floral gardens on the river flat are completely covered with water. The high water is up to the Keizer home, just above the greenhouse and is lapping the floor of the wagon bridge which crosses from the county road to the New Mexico side at this point. The approaches of the bridge are under water and the current is racing along where the bank was before the rise.

Ballasting Santa Fe Track.
Crews of workmen are busy ballasting the Santa Fe track above Courchesne and a night crew and train were put on Friday night to place rock and sand along the right-of-way to keep it from washing. The sand pit belonging to Z. T. White, above the cement plant, is being used for material with which to fill the sand sacks. The overseer's residence at Courchesne has been vacated and the windows and doors removed, as the water is up to

the foundation. Being an adobe house, it is feared that the structure will fall. The water has completely covered the barnyard of this place and is lapping at the front door of another house just north of the one vacated on the south side of the road.

Many Go to See Flooded District.
The river is attracting almost as much attention as the revolutionary camp did last year. Auto parties make nightly trips to Courchesne to see the flood and the street cars are crowded in the evening with people going out to see how high the water is. The pass is now completely filled with the river and with the sunset lights and the reflections of the clouds in the water, it forms a picture that is pleasing to everyone but the people who are suffering from the high waters.

Island Under Water.
Capt. J. H. Rogers, deputy United States marshal, made a trip to Fabens Friday afternoon. He says the water is reported over the island in many places and that the water was over some of the low land lying along the river near Fabens. Capt. Rogers says that the county road from El Paso to Fabens is in good condition and the water shows no signs of washing out any of the paved road.

HATCH BRIDGE WEAKENED.
TRAFFIC IS ALL STOPPED.
Garfield N. M., June 1.—The present high water has caused some damage to the center support of the county bridge at Hatch.

One pile has been washed out by the current, leaving the spans dependent on that support in a weakened and dangerous condition. The commissioners now have a force of men at repair work and, until the present flood subsides, have considered it advisable to stop all heavy wagon traffic over the bridge.

There is now little danger of the bridge going out, as it is believed the precautionary measures will obviate what would be a veritable disaster, as the bridge in question is the only one between Mesquite and Elephant Butte.

BRIDGE AT MESQUITE WASHED OUT BY FLOOD.
La Mesa, N. M., June 1.—The bridge across the river at Mesquite has been washed away. The bank at St. Thomas is still holding and at present La Mesa is not in danger.

PECOS VALLEY FAIR
FORMALLY LAUNCHED

Roswell, N. M., June 1.—It is now the highest fair in the Pecos valley, far surpassing the initial season of 1911. The Roswell Products exposition, Mayor William M. Atkinson, was chosen president; J. B. Herbst, was unanimously chosen secretary, J. E. Rhea and Clark Dilley were named the finance committee by the president. This committee is requested to raise \$4,000.

Frank N. Brown was named chairman of the amusement committee, with power to appoint any other members necessary. He has chosen W. H. Stine as his right hand man.

J. B. Herbst was named chairman of the Agriculture and horticulture committee, with power to choose other members.

The Women's club will be asked to arrange a flower parade.

CUBAN REBELS
CONTINUE ACTIVE

(Continued from Page 1.)

disco, it is believed, will insure American properties in that neighborhood against further molestation. The gunboat Nashville is now in Nipe bay, on the north coast, where there are large American interests.

Property of the Spanish-American Iron company at Berrico already has been destroyed, but the buildings were of a character easily duplicated, and the rebels have failed to inflict any damage upon the great ore handling plants and dock at Daiquiri, the loss of which might cripple the company for years.

State department officials believe the situation in Cuba has improved so that the great battleships of the second squadron are likely to continue to swing idly at their anchors at Key West for a good while, awaiting the word from American minister Basurre at Havana that would call them to Cuban waters.

TO THE DEMOCRATS OF THE
EIGHTH SUPREME JUDICIAL DISTRICT

I hereby announce my candidacy for the office of Chief Justice of the Court of Civil Appeals of the Eighth Supreme Judicial District of Texas, subject to the action of the Democratic party of this District.

I have not been endorsed or requested to become a candidate by any local organization within the Democratic party. I have been requested to make the race by many members of the bar of El Paso and elsewhere in the District. I base my candidacy upon the record I have made as a lawyer for thirty-four (34) years and a District Judge at Austin for ten (10) years. I have practiced law in El Paso over six years. Many of the members of the bar know my record as a District Judge—others know my record as a lawyer in El Paso for over six years.

If the voters who may be informed, or who may inform themselves about me, shall see proper to support me because of such qualifications for the office as they may think I possess, I shall be glad to have their support, and as I am not a member of either of the local organizations within the party, I shall be pleased to have the endorsement of both of them.

Respectfully, F. G. Morris.

AUSTIN BAR RESOLUTIONS
AS TO JUDGE MORRIS

In connection with the foregoing, The Herald has been handed a copy of the Resolutions of the Austin Bar, of October 11, 1922, which are as follows:

Resolved, That for a period of ten years he has presided over the District Court of Travis County with dignity and impartiality.

Third—That as a Judge, we deem him able, honest, brave and just.

Fourth—That as a man we esteem

him for his integrity, high purposes and purity in social and domestic life.

Fifth—That as a citizen, he has proven himself to be upright, law-abiding, a lover of peace and enforced law.

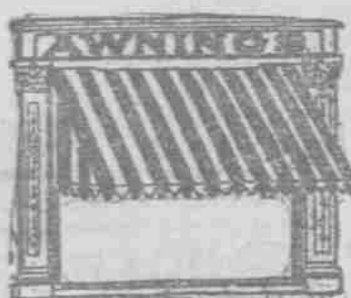

Sixth—That we wrap about him our warmest friendship and utmost good will, and trust his future may be full of happiness and prosperity.—Ad.

Wright cleans garments cleanest.

A NOTED DOCTOR SAYS,

Everyone should use some little antiseptic powder in the shoes. Confining the feet in shoes, is in itself unnatural and causes a moist or smarting condition. People of refinement now use daily, Allen's Foot-Powder, the antiseptic powder to be shaken into the shoes, and would as soon go without a dentifrice as without the use of Allen's Foot-Powder.

Motherhood

The highest point of woman's happiness is reached only through motherhood, in the clasping of her child within her arms. Yet the mother-to-be is often fearful of nature's ordeal and shrinks from the suffering incident to its consummation. But for nature's ills and discomforts nature provides remedies, and in Mother's Friend is to be found a medicine of great value to every expectant mother.

It is an emulsion for external application, composed of ingredients which act with beneficial and soothing effect on those portions of the system involved. It is intended to prepare the system for the crisis, and thus relieve, in great part, the suffering through which the mother usually passes. The regular use of Mother's Friend will repay any mother in the comfort it affords before, and the helpful restoration to health and strength it brings about after baby comes.

Mother's Friend is for sale at drug stores. Write for our free book for expectant mothers which contains much valuable information, and many suggestions of a helpful nature.
